

# CHARLES SIMPSON for CITY COUNCIL

## Ward 6

### **Ward 6 Residents Need:**

#### **HOUSING SOLUTIONS**

- "Neighborhood balance" shouldn't mean conversion of single-family homes into rental triplexes.
- UVM must house its 3000 off-campus students on-campus, not in "purpose-built" dorms in residential neighborhoods.
- Real affordable housing means expanding income-sensitive subsidies, defending inclusionary zoning, "housing first" for the most vulnerable and strict code enforcement of rental units.

#### **SAFE SKIES**

- Cap aircraft noise that has already forced the demolition of 200 area homes.
- Don't jeopardize thousands more homes by basing the F-35 at Burlington Airport (BTV).

#### **TAX SAVINGS**

- Don't subsidize private development projects.
- We can't waste millions more on an outdated Champlain Parkway that dead ends Pine Street and erases job potential in the Enterprise Zone.

#### **EFFECTIVE EDUCATION**

- Support our students and teachers.
- Let's renovate BHS and control excessive school administrative salaries.

#### **A LIVABLE CITY**

- Keep Memorial Auditorium a fully functional civic and cultural space.
- Transition to cleaner, energy-saving electric buses.
- Require an adequate minimum wage.
- City Hall Park to serve residents, not just tourists.

**Integrity • Knowledge • Trust  
A Livable City**
